### **QuEST Global Engineering Profile**

QuEST Global Engineering is a diversified pure play engineering services/ integrated product development company. A pioneer in offshore product development, QuEST is one of the largest engineering services provider catering to diversified verticals

The company helps customers in Aero engine, Aerospace and Defense, Power Generation, Oil & Gas, and other verticals to cut product development and project costs, shorten lead times, extend capacity and maximize engineering resources availability by providing support across the complete product life cycle from design and modeling through analysis, prototyping, automation, data documentation, instrumentation and controls, embedded systems development, and vendor management.

With its local-global model, QuEST combines physical proximity to the customer providing domain knowledge and ease of interaction, along with delivery from low cost locations that also provides easy resource ramp-up/ramp-down

QuEST Global Engineering employs over 1800 professionals and has 12 global delivery centers across Singapore, US, UK, Germany, Italy, Spain, France, Japan and India.

#### **Awards & Certifications:**

- Ranked No. 1 ESO vendor in Black Book Of Outsourcing 2009
- Listed in the Top 10 Engineering Services providers in India by Dataquest, 2009
- Listed in the Top 5 Global R&D service provider rating (Aerospace & Defense) by Zinnov Management Consulting, 2009
- Winner in Deloitte Technology Fast 50 India, Fast 500 Asia Pacific, 2009
- Best 10 Leaders in Revenue Growth; Best 5 Companies by Industry Focus – Air Transportation (IAOP 2010)
- Competitive Strategy Leadership award from Frost & Sullivan
- EADS E2S preferred supplier for Engineering Services
- CMMI Level 3, AS 9100 Rev B, ISO 27001, ISO 9001:2000, TS 16949
- Customer Approvals: Airbus SAS, Magellan Aerospace, Goodrich, HAL, SAAB

#### **About QuEST Global**

QuEST Global is a leading provider of outsourced engineering services and manufacturing, with over 2,000 employees, and delivery presence in Singapore, India, USA, Italy, Japan, Germany, France, Spain and UK. QuEST Global has 3 lines of business: QuEST Global Engineering, QuEST Global Manufacturing and QuEST Global SEZ.

### **QuEST Global Corporate Profile**

QuEST Global is a leading provider of outsourced engineering services and manufacturing, with over 2000 employees, and delivery presence in Singapore, India, USA, Italy, Japan, Germany, France, Spain and UK. QuEST Global has 3 lines of business: QuEST Global Engineering, QuEST Global Manufacturing and QuEST Global SEZ.

QuEST Global Engineering offers engineering services to customers in the Aerospace & Defense, Aeroengines, Oil & Gas, Power Generation, Industrial Products & FMCG, and emerging segments. The company provides support across the complete product life cycle from design and modeling through analysis, prototyping, automation, data documentation, instrumentation and controls, electronics & embedded systems development and manufacturing engineering.

QuEST Global Manufacturing is a wholly owned subsidiary of QuEST Global, focusing on precision manufacturing, sheet metal fabrication, aerospace special processing, design and development of tooling, fixtures & gauges for the Aerospace, Automotive and Industrial verticals. With state-of-the-art machines, technology and processes, the company has an installed capacity of 150,000 hrs/year on CNC precision machining, making it one of the largest aerospace machining centers in the private sector in India. QuEST Global Manufacturing has operations in a Special Economic Zone in Belgaum (Karnataka, India), with approvals from primes and direct customers. QuEST Global Manufacturing provides its customers with fully finished parts and assemblies, thus enabling its customers to scale up their sourcing from India of fully finished machined components today, to fully integrated sub-systems in the near future.

QuEST Global SEZ is India's first ever notified precision engineering Special Economic Zone (SEZ) at Belgaum, Karnataka providing the best-in-class facilities and infrastructure for Aerospace, Automotive and Industrial engineering industries. The development is spread over 300 acres and is currently focused on developing the Aerospace supply chain ecosystem for OEMs, suppliers, ancillary and related end user industries.
