

QuEST Global Manufacturing Profile

QuEST Global Manufacturing is a group company of QuEST Global, focusing on precision manufacturing, sheet metal fabrication, special processing, design and development of tooling, fixtures & gauges for the Aerospace, Automotive, Oil & Gas, and Industrial verticals. With state-of-the-art machines, technology and processes, the company has an installed capacity of 150,000 hrs/year on CNC precision machining, making it one of the largest private sector aerospace machining centers in India. QuEST Global Manufacturing has operations in a Special Economic Zone in Belgaum (Karnataka, India), with approvals from primes and direct customers. By engaging with leading Aerospace OEM's and Tier-1s, the company provides fully finished detailed parts and sub-assemblies, thus enabling them to scale up their sourcing from India of fully finished machined components today, to fully integrated sub-systems in the near future.

- **Precision Engineering:** QuEST Global Manufacturing has an integrated machining facility with state of the art manufacturing processes for Aerospace structural parts, Automotive Engine Components and Sub Assemblies, Industrial and Instrumentation precision machined parts as well as ferrous and non ferrous materials machining, including Titanium.
- **Design and Build:** QuEST Global's Design and Build capabilities include end-to-end support in designing and building of Aerospace and Automotive components or sub-systems.
- **Special Processing:** QuEST Global has set up a first of its kind independent special processing facility in a joint venture with Magellan aerospace in India. This is in line with QuEST Global's vision to become an end to end product development solutions provider to the global aerospace market. This will provide global aerospace OEMs access to a supply chain within India as well as help meet their offset requirements.

Awards & Certifications:

- **Quality Certification:**
 - o ISO -9001-2000
 - o AS9100
 - o TS 16949
 - o NADCAP

- Customer Approvals:
Airbus SAS, Magellan Aerospace, Goodrich Aerospace, HAL, SAAB
Aerosstructures, Messier Dowty, Pratt & Whitney, Eaton Aerospace, Honeywell.
- Competitive Strategy Leadership award from Frost & Sullivan
- Best 10 Leaders in Revenue Growth; Best 5 Companies by Industry Focus – Air Transportation (IAOP 2010)
- EADS E2S preferred supplier for engineering services 2009
- Winner in Deloitte Technology Fast 50 India, Fast 500 Asia Pacific, 2009

About QuEST Global

QuEST Global is a leading provider of outsourced engineering services and manufacturing, with over 2,000 employees, and delivery presence in Singapore, India, USA, Italy, Japan, Germany, France, Spain and UK. QuEST Global has 3 lines of business: QuEST Global Engineering, QuEST Global Manufacturing and QuEST Global SEZ.
